

**Inflatable Packaging's Waffle Air Products** provide protective air cushioning for your sensitive shipments. Large or small Inflatable Packaging has a Waffle Air Product to meet your needs. Using interconnected air chambers waffle products provide unsurpassed resilience. Inflatable Packaging has three distinct Waffle Product lines designed to fit your product best. Waffle-Pak™ is a one piece custom package designed to perfectly fit your products. Waffle-Cap™ provides 5 sides of protection and a single size is capable of packaging a range of different products. Waffle-Cush™ is a foldable inflatable that can be used to add cushioning to just about anything. IPI Waffle Products are an effective economic way to package and protect your products.

**Inflatable Packaging's Waffle Air Products** are revolutionary new way of packaging with air. Waffle Air Products use many interconnected chambers to brace and cushion your products. IPI Waffle delivers amazing performance and resilience. A single Waffle inflatable can hold a range of different shapes and sizes. In addition Waffle Products can be custom designed to fit your needs. IPI Waffle like all other IPI products, is reusable. Waffle Air's easy to use self sealing inflation valve can also be reentered to inflate and deflate the product numerous times.

**Protect your products** with IPI Waffle Air Products. Whether you are shipping laptops or medical equipment Inflatable Packaging Waffle Air Products ensure that your products reach their destination unharmed. IPI has many stock sizes and shapes of Waffle Air Products but should your needs not fit into one of our stock products we can engineer a solution to give you the protection and ease of use you need at an affordable price. Inflatable Packaging has custom designed waffle air products for a variety of customers shipping everything from boxed candy to sensitive electronics.

**Waffle-Cap** provides 5 sided in-box protection when placed inside a box. Waffle-Cap™ can be used with our Void-Fill™ bag to create a complete solution that can fit and protect products of all different shapes and sizes.

**Waffle-Pak** is a single inflatable that creates complete six sided protection for select products. Waffle-Pak 1612 inflatables provide best in class protection for shipping today's sensitive laptop computers.

**Waffle-Cush** is a large cushioning pad that can be used in many ways to provide protection for all kinds of products. Products can be wrapped in a Waffle-Cush™ to provide additional product protection.

## MADE IN AMERICA

Inflatable Packaging takes pride in the fact that Waffle Air products are manufactured and engineered in America.
